

NITESH KUMAR

DATA ANALYST | BI ANALYST

Faridabad, Haryana | +91-9870530569 | niteshk1407@gmail.com | <https://www.linkedin.com/in/nitesh-kumar-2b99b1269/> | <https://github.com/Nk-987> | portfolio-5avx.vercel.app/ | leetcode.com/itsnk123/

PROFESSIONAL SUMMARY

Data Analyst with hands-on experience in SQL, Python, Pandas, NumPy, exploratory data analysis, data cleaning, KPI analysis, business intelligence, and machine learning workflows. Experienced in transforming structured and unstructured data into analytical insights, dashboards, and predictive models using Power BI, Tableau, Streamlit, and Python. Built analytics projects involving 4,000+ rental records, 10,000+ business/HR records, and customer churn prediction. Experienced with MySQL and MongoDB, with additional exposure to AI/ML workflows through a Data Science & AI internship. Strong foundation in operational analytics, funnel analysis, retention/churn analytics, data visualization, and communicating data-driven findings.

TECHNICAL SKILLS

Programming: Python, SQL, C++

Data Analysis: Pandas, NumPy, Data Cleaning, Exploratory Data Analysis (EDA), Feature Engineering, Statistical Analysis

Machine Learning: Scikit-learn, XGBoost, LightGBM, Regression, Classification, Model Evaluation, NLP

Data Visualization: Power BI, Tableau, Matplotlib, Plotly

Databases: MySQL, MongoDB

Deployment & Tools: FastAPI, Streamlit, Docker, Git, GitHub, GitLab, VS Code, Google Colab

Business Analytics: KPI Analysis, Dashboarding, Reporting, Data-Driven Insights

PROFESSIONAL EXPERIENCE

Placify Technologies | Data Science & AI Intern | Sep 2024 – Dec 2024

- Built machine learning workflows for aviation imagery analysis across 5,000+ image samples, supporting detection, classification, and segmentation tasks.
- Optimized image preprocessing pipelines, reducing processing time by ~25% and improving model efficiency.
- Improved database performance by optimizing data types and storage structures, reducing storage overhead by 15%.
- Collaborated with 4+ engineers to enhance AI workflows and system performance using Git, GitHub, GitLab, and Docker.

Placify Technologies | Full Stack Developer Intern | Feb 2025 – Aug 2025

- Contributed to a production-level web application using Angular and NestJS for internal teams.
- Implemented image optimization techniques, reducing page load time by ~30%.
- Restructured application URLs using Strapi CMS to improve SEO indexing and search visibility.
- Resolved 10+ frontend and backend bugs and collaborated with 5+ developers during sprint meetings.

PROJECTS

House Rental Price Prediction | Python, Pandas, NumPy, Scikit-learn, XGBoost, LightGBM, FastAPI, Streamlit, Docker

- Built a regression system to predict rental prices using 4,000+ housing records across multiple cities.
- Performed data preprocessing, exploratory data analysis, feature engineering, model training, and evaluation.
- Compared XGBoost and LightGBM models and deployed real-time predictions with FastAPI, Streamlit, and Docker.

Sales & HR Analytics Dashboard | Power BI, Python, Pandas, Data Visualization

- Built interactive Power BI dashboards analyzing sales performance and employee metrics across 10,000+ records.
- Cleaned and transformed datasets with Python and Pandas and designed KPI views for revenue, employee performance, and department productivity.
- Enabled business users to explore trends and insights through dynamic filters and interactive reports.

Customer Churn Prediction System | Python, Pandas, Scikit-learn, Logistic Regression, Random Forest

- Developed a churn prediction system using exploratory data analysis, feature engineering, and class-imbalance handling.
- Trained and compared Logistic Regression and Random Forest models to identify customers at risk of leaving.
- Generated retention-oriented insights from model outputs.

EDUCATION

B.Tech, Computer Science and Engineering — Bennett University, Greater Noida | 2021–2025 | CGPA: 7.6/10

Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, Database Management Systems, MERN Stack Development
