

NITESH KUMAR

FRONTEND DEVELOPER | REACT.JS | NEXT.JS | ANGULAR

Faridabad, Haryana | +91-9870530569 | niteshk1407@gmail.com | linkedin.com/in/nitesh-kumar-2b99b1269/ | github.com/Nk-987 | portfolio-5avx.vercel.app/ | leetcode.com/itsnk123/

PROFESSIONAL SUMMARY

Computer Science graduate with hands-on frontend and full-stack development experience, including internship experience building and improving a production-level web application using Angular and NestJS. Skilled in JavaScript, React.js, Next.js, Angular, HTML, CSS, responsive web development, REST API integration, SEO, image optimization, Git, and modern web development workflows. Improved page load performance by ~30%, resolved 10+ frontend and backend bugs, and contributed to URL restructuring and feature enhancements. Strong foundation in UI development, API integration, performance optimization, and collaborative software development.

TECHNICAL SKILLS

Languages: JavaScript, Python, C++, SQL

Frontend Development: HTML5, CSS3, JavaScript, React.js, Angular, Next.js, Responsive Web Development

UI & Web: UI Development, Component-Based Development, API Integration, Image Optimization, SEO

Backend & APIs: Node.js, Express.js, NestJS, REST APIs, JWT, CRUD Operations

Databases: MongoDB, MySQL

Tools & Technologies: Git, GitHub, GitLab, Docker, Strapi, Streamlit, VS Code

Core: Data Structures & Algorithms, Object-Oriented Programming, Debugging, Problem Solving

PROFESSIONAL EXPERIENCE

Placify Technologies | Full Stack Developer Intern | Feb 2025 – Aug 2025

- Contributed to a production-level web application using Angular and NestJS, supporting frontend development, maintenance, and feature enhancements.
- Implemented image optimization techniques, reducing page load time by ~30% and improving web application performance.
- Restructured application URLs using Strapi CMS to improve SEO indexing and search visibility.
- Resolved 10+ frontend and backend bugs, improving application stability and user experience.
- Collaborated with 5+ developers in weekly sprint meetings to discuss requirements, improvements, and implementation approaches.
- Used Git, GitHub, and GitLab for version control, code management, and team collaboration.

Placify Technologies | Data Science & AI Intern | Sep 2024 – Dec 2024

- Collaborated with engineering teams on AI and image-processing workflows, gaining experience working with production-oriented development practices.
- Optimized image preprocessing pipelines, reducing processing time by ~25% and improving application efficiency.
- Used Git, GitHub, GitLab, and Docker for version control and collaborative development.

PROJECTS

Book Store App (MERN Stack) | MongoDB, Express.js, React.js, Node.js, JavaScript, JWT, REST APIs

- Built a responsive full-stack web application for browsing, filtering, and purchasing books.
- Developed the React.js frontend and integrated it with REST APIs for user management and order processing.
- Implemented JWT-based authentication and CRUD operations for efficient application and database management.
- Ensured seamless frontend-backend communication using RESTful architecture.

Real-Time Weather Dashboard | Python, Streamlit, OpenWeather API, JavaScript, Matplotlib, Plotly

- Developed an interactive dashboard that consumes live OpenWeather API data and presents weather information through a user-focused interface.
- Implemented interactive visualizations for temperature, humidity, wind speed, and weather trends using Plotly and Matplotlib.
- Designed a Streamlit-based interface for displaying current conditions and forecasts.

House Rental Price Prediction | Python, FastAPI, Streamlit, Docker

- Built an interactive application for real-time house rental price predictions.
- Integrated a machine learning model with FastAPI and Streamlit and containerized the application using Docker.
- Developed the application interface to connect user inputs with backend prediction services.

EDUCATION

B.Tech, Computer Science and Engineering — Bennett University, Greater Noida | 2021–2025 | CGPA: 7.6/10

Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, Database Management Systems, MERN Stack Development
