

# NITESH KUMAR

## FULL STACK DEVELOPER | SOFTWARE DEVELOPER

Faridabad, Haryana | +91-9870530569 | niteshk1407@gmail.com | linkedin.com/in/nitesh-kumar-2b99b1269/ | github.com/Nk-987 | portfolio-5avx.vercel.app/ | leetcode.com/itsnk123/

### PROFESSIONAL SUMMARY

Computer Science graduate with full-stack development internship experience building and improving production-level web applications using Angular and NestJS. Skilled in JavaScript, React.js, Next.js, Node.js, Express.js, NestJS, MongoDB, MySQL, REST APIs, JWT, Git, and Docker. Improved page load performance by ~30%, resolved 10+ frontend and backend bugs, and contributed to SEO and URL restructuring. Strong foundation in Python, data analysis, and machine learning.

### TECHNICAL SKILLS

**Languages:** JavaScript, Python, C++, SQL

**Frontend:** HTML, CSS, React.js, Angular, Next.js

**Backend:** Node.js, Express.js, NestJS, REST APIs

**Databases:** MongoDB, MySQL

**Development:** JWT, CRUD, Git, GitHub, GitLab, Docker, Strapi, Streamlit

**Core:** Data Structures & Algorithms, Object-Oriented Programming, API Integration

### PROFESSIONAL EXPERIENCE

**Placify Technologies** | Full Stack Developer Intern | Feb 2025 – Aug 2025

- Contributed to a production-level web application using Angular and NestJS for internal teams.
- Implemented image optimization techniques, reducing page load time by ~30%.
- Restructured application URLs using Strapi CMS to improve SEO indexing and search visibility.
- Resolved 10+ frontend and backend bugs and collaborated with 5+ developers during sprint meetings.

### PROJECTS

**Book Store App (MERN Stack)** | MongoDB, Express.js, React.js, Node.js, JWT, REST APIs

- Built a responsive full-stack application for browsing, filtering, and purchasing books.
- Implemented JWT-based authentication, user management, order-processing REST APIs, and CRUD operations.
- Integrated frontend and backend services through RESTful architecture.

**House Rental Price Prediction** | Python, FastAPI, Streamlit, Docker

- Built and deployed a real-time machine learning application using FastAPI and Streamlit.
- Containerized the application with Docker and connected model predictions to an interactive interface.

**Real-Time Weather Dashboard** | Python, Streamlit, OpenWeather API, Matplotlib, Plotly

- Built an interactive dashboard consuming live OpenWeather API data and visualizing temperature, humidity, wind speed, and forecasts.
- Created interactive trend visualizations with Plotly and Matplotlib.

### EDUCATION

**B.Tech, Computer Science and Engineering — Bennett University, Greater Noida | 2021–2025 | CGPA: 7.6/10**

Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, Database Management Systems, MERN Stack Development
